Providence, RI 02903

**Re: Statement of Interest**

The Central Falls School District in conjunction with the leadership of the City of Central Falls is most interested in pursuing the Facilities Master Plan projects as described in the Stage I Application attached which has been developed by Newport Collaborative Architects after having conducted numerous meetings with various Central Falls constituencies and at least as many individual school building tours and inspections.

Both programmatically and from a public safety and equity perspective, these facilities projects are urgently needed. We all believe the attached application and related materials present a compelling case for the approval and advancement of these renovation and construction projects.

Anna Cano-Morales  
Chair, Central Falls School Board of Trustees

Charles Moreau  
Mayor, City of Central Fall

Frances Gallo  
Superintendent, Central Falls School District
