

1:1 Success Indicators

The success of our 1:1 program is measured against the skills needed to excel in a rapidly evolving global society. The notion of what it means to be college and career ready has been reshaped by a world where access and connectivity are becoming ubiquitous. By placing connected devices in our classrooms students possess the autonomy to:

CREATE
COLLABORATE
EXPLORE
and
SHARE WITH THE GLOBAL COMMUNITY.

Indicators of success for the 1:1 program are linked to a student's ability to create, collaborate, explore and share. Definitions for these core digital age skills are provided below.

CREATE

Students and Teachers will "make" content in ways not witnessed in the past and offer product/solution in ways not conceived before.

COLLABORATE

Students will connect with others and develop PLNs. As a result, problem-solving will become a collaborative endeavor in which students have to effectively work in teams/groups to realize a solution.

EXPLORE

Students will tackle complex problems and use the DISCOVER research process to gather evidence needed to make informed decisions.

SHARE WITH THE GLOBAL COMMUNITY

Students and Teachers will communicate ideas to both local and global audiences.
